

Iowa State Study of AllDown®

The Iowa State University Department of Horticulture did extensive testing on the effects of AllDown®. The results showed comparable success at a very fast knockdown rate, as compared to industry leading toxic herbicides.

IOWA STATE UNIVERSITY
Department of Horticulture

“AllDown(tm), a natural organic herbicide, was screened for efficacy in turfgrass and compared to Roundup. AllDown proved to be an excellent “knockdown” product for rapidly removing grasses. This is a promising material.”
